RIVER NEWS .- The Cumberland was falling slowly on Saturday, with 7 feet large on Har-

peth Shoals. The Nettie Miller came down from Gainsboro' on Saturday, en route for Paducah with

a loud of Tolmeco,

A FINE YAM .- Our senior publisher, Mr. B. R. McKennie, has laid upon our table the finest apecimen of the Sweet Potato, by very large odds, that we have seen this year. It was grown at his residence near this city, and is of the white yam variety-measures 114 inches in circumference, and weighs 21 lbs. A splendid specimen, certainly, for so early a period of the season. It is of the same variety with those which took the premium at the Agricultural Fair last Fall.

INPAMOUS ATTEMPT TO BURN & CHURCH. Two attempts have recently been made to burn the Christian Church on Cherry street One on Friday night, and the other discovered Saturday about noon. The first attempt was made in the basement, and was discovered before any material damage was done. On Saturday smoke was discovered issuing from the Cupola, and after the fire was extinguished, which was done promptly, a lot of combustible material was discovered on the spot .-There seems to be no room for doubt that incendiaries had been at work. The church is a new one, and is one of the finest and handsomest in the city. The pulpit is occupied, as it has been since its erection, by Rev. Jassa B. FERGUSON. The building is insured for

We learn that the clappers of the Church and the Broad street Engine House bells were both securely fastened to prevent the alarm being promotly given.

The opinion is well grounded that there has been a deliberately concerted attempt, intelligently planned, to destroy the Church; but the motive which prompted it cannot be even suspected. We trust the incendiaries, whoever they are, may be detected.

Thirty-Nine.

Jons G. SARR, the Vermont poet and wit, contributed the following to the last number of the Knickerbocker. It has a graceful polish and humor that makes it a gem:

Ab me! the moments will not stay! Another year has passed away; And June (the second) scores the line And tells me I am Thirty nine!

As thus I haste the mile-stones by, I mark the numbering with a sigh; And yet 'tis idle to repine I've come so soon to Thirty-nine ! Ah! few that roam this world of ours,

To feel its thorns and pluck its flowers, Have trod a brighter path than mine From blithe thirteen to Thirty nine!

Health, home and friends, (life's solid part,) A mery laugh, a fresh young heart, Portic dreams and love divine-Have I not THESE at Thirty-nine?

O, Time! forego thy wonted spite And lay thy future lashes light, And, trust me, I will not repine At Twice the count of Thirty nine!

It has long ceased to be fashionable to "puff" patent medicines, or do any thing to enhance their sale; not from any particular prejudice that has arisen in the public mind against them, but simply from the worthlessness of nearly all the "great remedies" crowded into the market. But occasionally a medicine that posseses real merit is brought into light-one that is really what it purports to be. Of this class, Sloan's preparations can be ranked with safety, for we have heard of no instance where his medicines have been tried, but that the fullest satisfacth n has been given, and their immense sale will fully attest their popularity.-Se- Sloan's advertisement in another column.

ECONOMY AND COMFORT. DR. C. W. CROZIER'S Camphor Wash Mixture, Patented July 11, 1854, and which received the Premium at the Nashville Fair in October last Warranted to contain nothing in the least injurious to Clothes; also a Great Pain Killer.

THE under-igned, having repeatedly been solicited to make consignments of the Patent Camphor Wash Mixture, has concluded to sell no more county rights in this state, but will in future have the Improved Camphor Wash Mixture put up and distributed throughout this State (except in the counties where the rights have been disposed of) and in the State of Alabama. And that he may be enabled more effectually to make this arrangement, he proposes to divide the patent for Tennessee and Alabama into 1,000 shares, one fourth to be retained, and the remainder—750 shares—will be offered for sale. A person remitting ten dollars will have one share in the Patent, to run fourteen years from July 11, 1854, and will be at the same time in-vesting also five dollars to be used in the purchase of the ingredients, advertising and the necessary expenditure of the means to prepare and distribute the Mixture for sale.— Consignments will be used to shareholders, (who may request it,) and to no other persons, to the amount of their remittance. And they will be allowed a commission of 33 per cent on their sales, and also their proportion of the Annual - xhibit of sales will be made, and dividends of the

profits remitted to each shareholder. No debts will be con-tracted, nor will the Company be responsible for any, as the business will be conducted upon the cash system. Any of those who have purchased patents for counties in his State, can have the privilege of exchanging their righ's for share at the price-they have paid. This exchange will be made at the cost of the Patentee. It is desirable to have at least one or more active shareholders in each counts in the States named. Subscriptions for shares will be closed by the 1st September next. And consignments of the Mixture will be made very soon thereafter. Certificates issued to shareholders, who will request the Agency, it they desire it.

The under igned will act Agent until the shareholders

elect three directors to serve one year, who will have the management until their successors shall be elected. Newspapers in Mobile, Montgomery, Tuscaloosa, Huntsville, Talladega and Tuscumbia, that will publish this twice and other edvertisements to the amount of ten dollars, and send one copy, will receive one share. Address. C. W. CROZUER, Patentee, Knoxville, Tenn.
